Transportation of Automobiles to Overseas Stations

25X1A

1. Attached hereto is a memorandum to the undersigned from [Redacted], dated 13 March 1947. The memorandum suggests certain minor changes in the Appendix [Redacted] These changes in no way alter the substance of the Directive. [Redacted] points out that the changes are suggested in order that the mechanics be more compatible with procedures now followed. If agreeable with you and ADSO, it is believed the changes could be effected on the second page of the Appendix without the issuance of a entire new Directive.
